

Why a private kindergarten?

Creative Kids offers an exceptional private kindergarten. With this program, our teacher/child ratios are low (1/16), allowing the teacher to work with each child individually. This allows the teacher to challenge each child through their strengths and encourage the development of their weaknesses.

Did you know that Kindergarten is not required in the state of Idaho? Did you know that if you need to work and choose to have your child enrolled in a private Kindergarten, the tuition is a tax write off along with the before/after school care?

What Others Are Saying

My experience at Creative Kids Daycare and Preschool has been exceptional. My child started at 10 mos. of age and is now in the PreK class, We will also attend next year, because Creative Kids takes Kindergartners and the bus picks up right there!

I am very blessed to have found such wonderful childcare for my child, not only is it clean, safe (coded entry makes a mom feel like her kid is protected while she works), its fun, and educational, there is a huge amount of family support, advice which makes transitions easier, and raising great kids, that comes from the staff, and directors!

Creative kids has helped us in accomplishing many goals of early childhood, They came highly recommended to me from my Niece and Nephew who as teenagers say, "I wish we could go there still today!" From art projects, to learning all the requirements to enter Kindergarten, to special classes they offer such as sports camp, musical beginnings, and gymnastics, special visitors such as librarians, police and fire dept. Instead of transporting my child on field trips, Creative Kids brings the field trips to the school!! All I can really say is the BEST place to be is, Creative Kids Daycare and Preschool, a loving Christian based environment, that offers a place to love and grow, make first friendships, and so much more to many small children of our community!

- Brenda
Creative Kids Parent

Our son started at Creative Kids when he was 8 weeks old and only 5 lbs. Creative Kids was so nurturing, development oriented and safe. He loved it so much and was sad to graduate and leave all of his sweet teachers. They say it takes a village to raise a child-that is so true. We are glad we picked the RIGHT village. Thank you for loving our son. We love you Creative Kids!

Creative Kids

Preschool & Child Care

Welcome to Creative Kids Daycare and Preschool!! Creative Kids is a proven leader in early childhood development. We are committed to excellence for you and your child. It is our commitment to help children develop into confident, caring, and creative individuals. We strive to bring out every child's unique qualities and nurture their independence. Children who attend our preschool will have the opportunity to explore, experiment, cooperate, discover concepts, problem solve, express their feelings, take initiative and responsibility, make friends, and appreciate our world.

Objectives for Children

Physical Development

- To promote each child's growth and general health.

Social and Emotional Development

- To assist each child in gaining social and personal adjustments needed for daily living.

Motor Skills

- To help each child develop body and manual coordination appropriate for his/her age.

Intellectual Development

- To help each child develop language skills, problem solving ability and perception.

Creative Development

- To help each child develop his/her creative potential.

Self Help Skills

- To help each child in developing skills and independence in caring for him/herself.

About Us

Our Mission — ❁ ❁ ❁ —

- Help each child to develop a positive self-image and a feeling of self worth.
- Help each child learn to be a warm, loving, and a responsible individual.
- Help each child with the opportunity for intellectual, social, emotional, physical, and creative development.
- Provide and promote parent education.

Our Staff

We maintain a well educated staff. The teachers are educated, qualified, loving individuals and all are ready to provide resources that challenge and nurture children at varying developmental levels. All teachers are required to continue their education in early childhood development by attending conferences each year. Also, all staff members are CPR/First Aid trained as well as background checked.
